

XC700

STABILISED SOIL MIXING PLANT

700 t/h

OVERVIEW

The XCMG XC700 is a stabilised soil mixing plant from the road machinery range, built for road construction, highway maintenance, municipal paving, asphalt production. Key figures: theoretical output 700 t/h, aggregate ±1.5 %, filler ±1 %. We confirm the paving or compaction train as a package so the machines work together.

KEY SPECIFICATIONS

Theoretical output	Aggregate	Filler
700 t/h	**±1.5 %**	**±1 %**

SPECIFICATION

Parameter	Value
Water	**±1 %**
Total installed power	**159 kW**
Max. single-unit power	**90 kW**
Footprint	**51×14 m²**
Max. aggregate size	**· 60 mm**
Installation layout	**Modular bolted design**
Speed control	**VFD speed control**

TYPICAL APPLICATIONS

- road construction
- municipal paving
- aggregate processing
- highway maintenance
- asphalt production
- airport runways
